DESIGN YOUR  
EVENT

# WHY THE CHURCH?

No other location in Dublin brings together an outdoor terrace, beautiful architecture, an exclusive late-night bar and a galleried restaurant with a 17th Century building with a rich history—all contributing to a versatile events pace.

Our city centre location puts us in a prime spot for hosting corporate events.

We're located minutes away from the Jervis Luas stop, the o'connell street green line luas stops and the city's main bus corridors, making us easily accessible!

Our biggest draw has to be the venue itself. The interior of this former church, built in the 17th century has been wonderfully preserved. From the original stained glass window, the galleries and the Renatus Harris organ, it truly is a breathtaking setting!

You and your event are in safe hands here at the church. Our reservations and management team have decades of combined experience in the hospitality industry.
